OBJECTIVE

Seeking an opportunity to work for a company where, with the help of my technical and managerial skills, I can be a part of and can lead their team, product and services.

WORK EXPERIENCE (4 yrs, 2 months)

(Feb 2016 - Present) Senior Software Developer at GeeksforGeeks.org
Part of the core software development and management team, I have sole responsibilities of two high-traffic Software Products on which I work with my technical team. The work range from product development to product management. I act as the team lead.

Also, when needed, I get involved in the hiring process of Interns and Full-time employees, and also in the decision making for the business requirements.

Above mentioned Software products are: <https://www.geeksforgeeks.org> and <https://contribute.geeksforgeeks.org>

(Aug 2014 - Feb 2016) Project Engineer at Wipro Technologies on the role of webMethods developer.

webMethod is an Integration development tool. Using this tool, I worked on building interfaces for SAP to connect it with external partners (B2B). Apart from this, I used webMethods to integrate various application to organizations like Mylan, etc.

Used various components of webMethods such as Integration Server, Designer, Trading Networks, MWS and Deployer.
