SUMMARY

UI/UX Experience – 5 yrs.
Web design Experience - 1 yrs.
E-learning Experience – 8 yrs.

Total Experience – 14 years

Experience in E-learning organization as a Lead Visual Designer as well Mobile learning/applications (UI, UX) designer for multiple platforms.

I have good experience in team handling and management in terms of project related estimation, team interaction, resource management, requirement gathering and deliver best quality of the product. My specialization in design is towards User Interface and User Experience design, and have expertise knowledge to prove myself better and try to serve clients with their expected requirements.

My role is responsible for UI design process like, Wireframe, Prototype, Design patterns, style guides, UI kits, typography & layout as well as stylization of Banners, Icons, E-mailer, Brochures, Logo, animations and all sales and market materials (Print/Digital).

Involved in e-learning projects for creation of GUI's, Visual Storyboard/Wireframe Creation, Visualization and Creation of Graphics as per the client requirement. Created various sales/ client presentations, splash screens, designing of website layouts, Responsive and adaptive Designs.

MY OBJECTIVE

To work in an organization where I can provide design solutions (UX/UI, Brand design, Animation and Visual design) requiring a combination of creativity, innovation, technology, and contribute in achieving organizational goals.
